

Visual deadline management

Three concept explorations for FELT Studio

01

T-minus list

Tasks sorted by urgency with shrinking countdown bars

02

Runway timeline

Today pinned left — deadlines approach as time passes

03

Arc timers

Circular Time Timer arcs showing remaining time visually

T-minus list

≤7 days ● 8–14 days ● >14 days ●

Tasks sorted by urgency. The countdown number is front and centre. The bar shrinks day by day.

T-1**Send final invoice**

Maple & Co

invoice

Tomorrow

T-3**Revised brief to client**

Thornwood Festival

task

3 days

T-7**Creative review call**

Maple & Co

milestone

7 days

T-12**Shoot day prep complete**

Thornwood Festival

task

12 days

T-18**Freelancer SOW signed**

General

milestone

18 days

T-26**Project wrap & handover**

Maple & Co

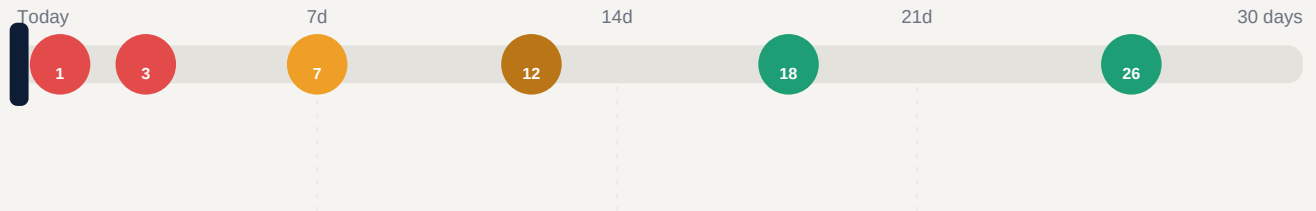

task

26 days

The T-minus number and colour shift give an immediate sense of urgency — no date-reading required.

Runway timeline

Today is always the left edge. Deadlines sit at a proportional distance and move toward you as time passes.

UPCOMING

T-1**Send final invoice**

Maple & Co

**T-3****Revised brief to client**

Thornwood Festival

**T-7****Creative review call**

Maple & Co

**T-12****Shoot day prep complete**

Thornwood Festival

**T-18****Freelancer SOW signed**

General

**T-26****Project wrap & handover**

Maple & Co

The runway view makes physical distance = time — a far deadline looks far. A close one looks close.

Arc timers

Each task gets a Time Timer arc. The coloured segment shows remaining time — it shrinks every day.

Arc timers are most powerful as a project-level overview — see all your deadlines at a single glance.
